SelfGrow - Personal Growth Tracking App

Name: Karma Chou

Assignment Number: 1

Class Name: Analysis Modeling & Design - 01 (Fall 2026)

Professor: Dr. Jonathan Reichental

Date: 2026/08/28

Project Proposal

Proposed Project: SelfGrow - Personal Growth Tracking App

SelfGrow is a simple personal growth tracking application that allows users to create and monitor a small set of daily habits. Users can mark habits as completed each day and view basic progress information such as completion percentages or streaks. The application is designed to help users stay consistent with personal goals through a clear and easy-to-use tracking system.
